# The Dialogue-oriented Service Procedure (DoSV) of the Trust for Admission to Higher Education Patricia Thomanek & Caren Bergs

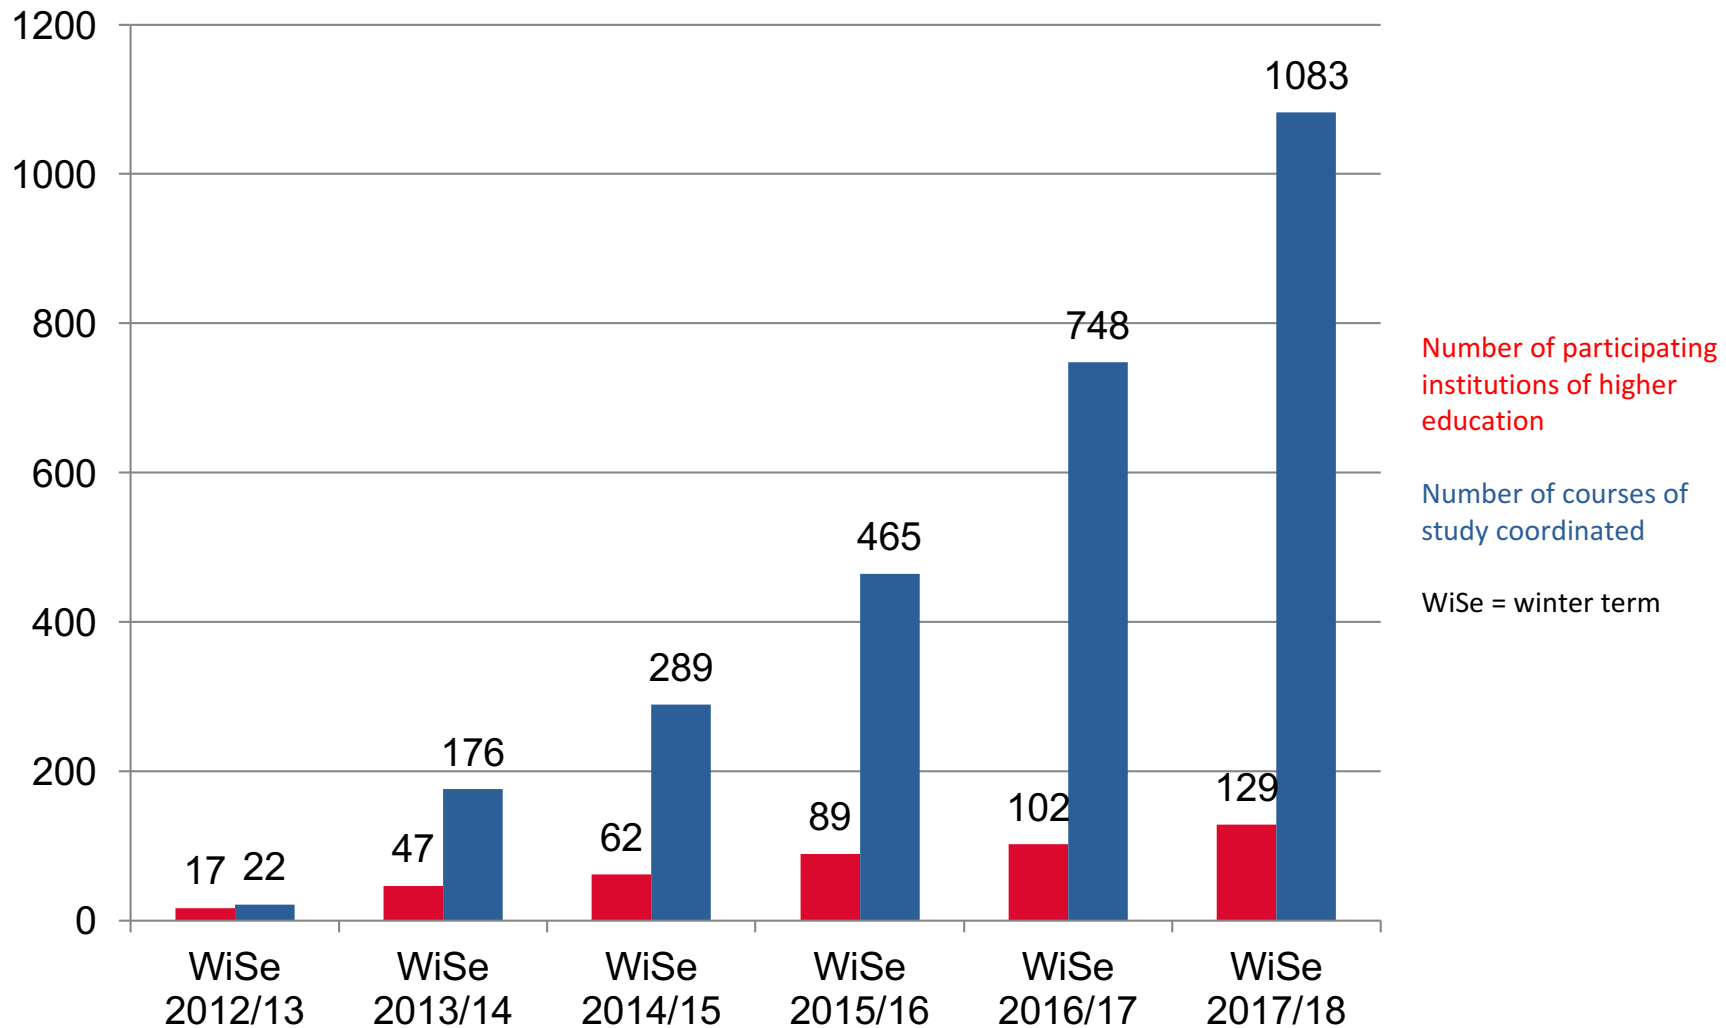

- The Dialogue-oriented service procedure (DoSV) was conducted for the first time in 2012 with the participation of 17 institutions of higher education
- Winter term 2018/19: appr. 163 institutions of higher education
- The phases in detail (example of summer term):

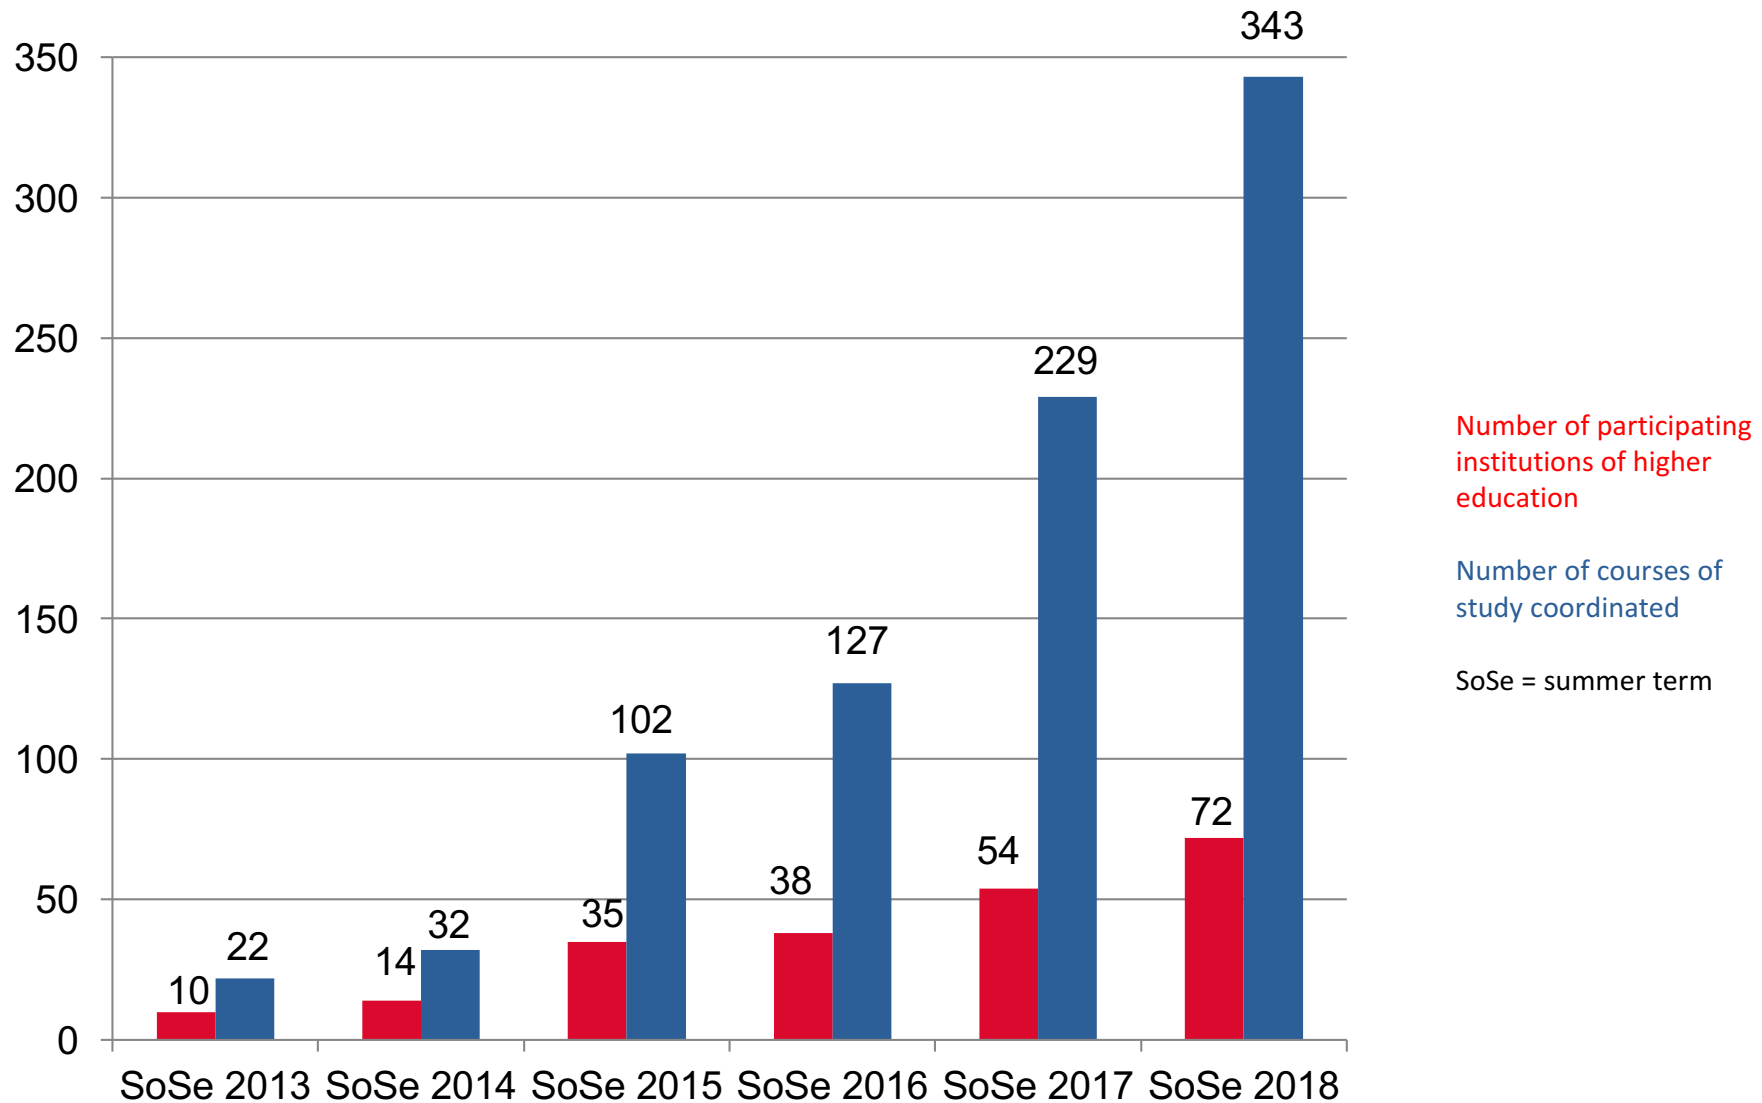

- Background: Multiple admissions for applicants led to insecurities for institutions of higher education
- DoSV: maximum number of 12 applications active in the procedure
- Goals of DoSV:
  - maximum number of 1 admission at the end of the procedure
  - Transparency for institutions of higher education
  - Transparency for applicants
- Institutions of higher education keep their autonomy in examining applications and compiling ranking lists

- Participation in the DoSV is not voluntary for admission-restricted courses of study
- Ambivalent perception of the DoSV
- Introduction of the possibility to coordinate admission-free courses of study in summer term 2018
- Background: Coordination can only be effective if as many courses of study as possible are contained in the DoSV
